

# You Make My World Go Around

Nikola Šarčević

I'm losing my friends for you tonight  
'Cos there is no one  
But you who makes me feel alright  
We've had our times of ups and downs

But after all it's worth it  
You're the one that makes my world go around

I'm leaving this town with you tonight  
It don't matter where we're heading  
As long as you hold me tight  
To you darling, I am chained and bound

And nothing's gonna change that  
You're the one that makes my world go around

If there is anything that I am sure of  
Then it's my love for you  
If there's anything that I want more of  
It is you
