

Cover your Eyes with Shielded Vision  
Covered in Silver, in Something New  
Something you can't describe, but you  
don't want to  
While the world is Spinning Fast

And the Nights keep getting longer  
While you drift down the Nowhere  
And the Nights keep getting longer  
While you drift  
But there's this...

We 're picking up the Strange vibration  
From the Second Star centered in the Darkness  
Of 20,000 Worlds away from you baby  
Gonna see you out there sometime
