NIM VIND

Are you as Free as you Claim?
Can you wash away your Name?
Start screaming through your mind
Now you're stepping through your eyes

For you it was just to many Tears
Can you wash away those Years?
Start Screaming through your mind
Now you're stepping into Mine
Now you're stepping

Through your Eyes
Your World into Mine

Who cares if we see you anymore?
Our Love is dressed like Nuclear War
No Survivors in our time
Now your Stepping through your Eyes
From your world into Mine
Now you're stepping

Through your Eyes
Your World into Mine
