## **Horses in the City**

## Nina Gordon

They walk the horses home at night right by my window They pull their carriages along busy city streets It's from another time it's like a lullaby But I don't think that I can sleep tonight

So I count the streetlights I count the stars I make a wish and wonder where you are I wonder if I'll live Long enough to feel again

Help me 'cause I'm falling out of grace I hang my head and hide my face I don't know what it is I just feel out of place Like horses in the city

I played the game I dropped the ball I lost another friend I gained a future but I can't see where the future ends I'd write a letter or write a song But once again my voice just comes out wrong Tonight I I wonder if I'll live long enough to sing again

Help me 'cause I'm falling out of grace I hang my head and hide my face I don't know what it is I just feel out of place Like horses in the city In the city yeah hey

But they don't seem frightened As the cars go speeding by So why am I so terrified to close my eyes tonight I'm just afraid there's no time no time this time

They walk the horses home at night right by my window They pull their carriages along busy city streets I wonder if they'll live to run without the reins again

Help me 'cause I'm falling out of grace I hang my head and hide my face No I don't know what it is I just feel out of place No don't know what it is Know what it is I just feel out of place And don't know what it is Know what it is I just feel out of place Like horses in the city In the city yeah
