

## New Year's Eve

Nina Gordon

Normally I'd be french-twisting my hair  
And selecting the right earrings to wear  
Oh it's a special evening for most  
Normally I'd be proposing a toast  
But not this year

Because I'm here the party's all around me  
You're there indifference has found me  
I know it's not in fashion  
Wearing heartache on your sleeve  
But I'm here and you're there so who cares  
What I wear on New Year's Eve

Normally I'd be knee-deep in champagne  
I'd kick my heels up until neighbors complain  
Oh it's a glamorous evening for most  
And normally I'd be upstaging the host

But not this year  
Because I'm here the party's all around me  
You're there indifference has found me  
I know I should have dressed up  
But I just can't make believe  
Now I'm here and you're there so who cares  
What I wear on New Year's Eve

If you're flirting with some other girl tonight  
I'm not flirting with some other guy  
I just keep thinking how last year  
At midnight you blew me away  
With the resolution that you made

I'm here the party's all around me  
You're there indifference has found me  
And tonight before the ball drops  
I'll grab my coat and leave  
I'm here and you're there so who cares  
What I wear on New Year's Eve  
I'm here and you're there so who cares  
What I wear on New Year's Eve
