

# Freedom Fighter

Nina Hagen

I've been around for a long long time  
I even went to India for a while  
I found my master and he found me  
I avoided the disaster yes now I'm free

Freedom is the essence of humanity,  
We are all born here to be free  
Everybody has got eyes to see  
True freedom is our destiny

Hey, when I signed my newest deal  
And the boss invited me for a free meal  
I told him "Hey my music will change the planet"  
And if he gives me freedom, I'll sell more than Janet

Freedom, Freedom, Freedom, Freedom...

Now, to give you true satisfaction  
I'll help you out with my best connection  
All you gotta do is ask me for the right direction  
'Cuz the world will only change if we all take action

Have to top the top of the charts  
My life is my mine, we aint no flop  
I do the punk and I do the pop  
I do the hip, yes and I do the hop

Freedom is the essence of humanity,  
We are all born here to be free  
Everybody has got eyes to see  
True freedom is our destiny

Freedom is our destiny  
Freedom is our destiny
