

# Somewhere Out There

Nina Hynes

Looking out holding on  
Moulding all the thoughts I have  
I realise the power now  
Begin again, begin again

Touch and go, line so fine  
Never thought could be so good  
You got me feeling that I could believe again  
I could believe again

Somewhere out there  
I can believe  
Somewhere out there  
I can see

Toast the town, lost and found  
Letting go of all I've ever known  
It happens now  
I can begin again  
I can live again

Now's the time, yours and mine  
Moulding all the thoughts I have  
Realise the power now  
Begin again, I can live again

Somewhere out there  
I can believe  
Somewhere out there  
I can see  
It's you for me and me for you  
You for me and me for you

You got me, you got me, you got me  
You got me, you got me, you got me  
You got me, you got me

Somewhere out there  
I can believe  
Somewhere out there  
I can see  
It's you for me and me for you  
You for me and me for you
