

## Run All You

Nina Nastasia

Run, all you big dogs  
Chase me round the green grass  
Burn all your little houses  
Down to their shadows  
In howling flames  
For nights we stared  
Biting at the blackened air  
Quiet, all you smoke dogs  
Snarling at the willows  
Fighting in the leaves  
Tearing at the hollows  
Of little dead dogs
