

# That's All There Is

Nina Nastasia

My dreams have come and gone  
The world is spinning faster each day  
And I am not the one  
My future promised I'd be  
I'm not hiding anything  
I'm not trying to fool you at all  
You keep expecting everything  
We're not like our pictures on the wall  
There's nothing wrong with us  
We still belong

But that's all there is  
So stop all your dreaming  
It makes me so sad  
Let's keep what we had

Sunday's never last  
It seems like it's the only time you'll sleep  
And you can't help looking back  
At everything you promised we would see  
You go out almost every night  
Pretending you're like everyone we meet  
All I ever want is you  
All I ever want for you to see  
There's nothing wrong with us  
We still belong

But that's all there is  
So stop all your dreaming  
It makes me so sad  
Let's keep what we had

'Cause that's all there is  
So stop all your dreaming  
It makes me so sad  
Let us keep what we had
