The Outcome

Nina Nesbitt

Now I've got a fainting heart You leave and it all goes dark Wake up in the light so cold If you feel the same I never know

Is this the way that you wanted? Are you certain? I'll be your all or nothing So what's the outcome? Was I just someone?

[Chorus:]
But I'll tell you one thing
I'm all or nothing, it's all or nothing now
It's your decision
This love for division
We're all together nothing now

Feel like I've committed a crime Waiting to resume my life I'm waiting between heaven and hell Maybe you should ask yourself

Is this the way that you wanted? Are you certain? I'll be your all or nothing So what's the outcome? Was I just someone?

[Chorus]

[x2:]
We're just in between now

What are we today? How am I to feel with You're so far away

Is this the way that you wanted? Are you certain? I'll be your all or nothing So what's the outcome? Was I just someone?

[Chorus x2]
