

# Last Dance

Nina Sky

Would you rather know the truth?  
Ohh... Even if it hurts you? Heyy...

So here we are  
Can't believe our song is fading in us  
Thought we would dance like this, forever  
Now every single note is breaking down  
Till there's no sound

When I'm checking on the thought of this  
You've broken up next part of us  
For once, was it worth it?  
'Cause when the music ends  
You won't be seeing me again, and then you know if it was worth it

You were innocent, till I proved you're guilty  
Even though it kills me, the truth is better than the lie  
No going back, I've reached my final verdict  
You had my heart and hurt it, but I won't let you see me cry

This is our last dance... Our last dance...  
This is our last dance... Our last dance...

So take my hand  
Follow me down to the floor right now  
Only have half of a song left to go  
And I'm not even angry for what you've done  
I'm only sad I have to let go

When I'm checking on the thought of this  
You've broken up next part of us  
For once, was it worth it?  
'Cause when the records ends  
You won't be seeing me again, and then you know if it was worth it

You were innocent, till I proved you're guilty  
Even though it kills me, the truth is better than the lie  
No going back, I've reached my final verdict  
You had my heart and hurt it, but I won't let you see me cry

This is our last dance... Our last dance...  
This is our last dance... Our last dance...

Oohh...

Would you rather know the truth?  
Even if it was hurting you...  
Could you say goodbye  
If you knew that it was right  
(If you knew that it was right)

Oohh...

You were innocent, till I prove you guilty  
Even though it kills me, the truth is better than the lie  
No going back, I've reached my final verdict  
You had my heart and hurt it, but I won't let you see me cry

This is our last dance... Our last dance...  
This is our last dance... Our last dance...
