

Overtime

Nina Sky

You can be the boss, I like it when you talk that talk to me
Anytime you call, you don't gotta wait, I'm here to please
Work hard, play hard, we can take it too far, I can handle anything
Getting a promotion, yeah, I got that potion, take the lead

Damn right, yeah, I know when I sip right
Yeah, I'm leaning when I sit right
When you here, tell me what you like, what you like

Always be around when you need me
Tell me what you like, how you feeling
All you need tonight, I'll love you better
My pleasure
Always be around when you need me
Tell me what you like, how you feeling
All you need tonight, I'll love you better
My pleasure

You got me working overtime, overtime, overtime
Overtime, overtime, overtime
Overtime, overtime, overtime
Overtime
You got me working overtime

Meet the number one, employer of the month
Make you believe
Putting extra hours, you give me that power
A master key
To turn you on and to shut it down
From the driver seat
Talking, no distraction, you give me that option
Take the lead

Damn right, yeah, I know when I sip right
Yeah, I'm leaning when I sit right
When you here, tell me what you like, what you like

Always be around when you need me
Tell me what you like, how you feeling
All you need tonight, I'll love you better
My pleasure
Always be around when you need me
Tell me what you like, how you feeling
All you need tonight, I'll love you better
My pleasure

You got me working overtime, overtime, overtime
Overtime, overtime, overtime
Overtime, overtime, overtime
Overtime
You got me working overtime

Overtime, overtime, overtime

Always be around when you need me
Tell me what you like, how you feeling
All you need tonight, I'll love you better

My pleasure
