

## Really Didn't Matter

Nina Sky

I cant believe this whole time..  
Thought what we had was real..  
Guess I was wrong..

See the way we touch  
it really don't matter  
Something is missing  
The love Between us  
Used to be better  
Maybe im trippin,maybe so  
Tell me where did we go wrong?  
Tell me were all the feelings go?  
Did it fade away?  
Or wus it ever here at all

It took this time to see the way that you feel  
But it was so right,to me  
Jus wasn't for real  
You had me feeling so like  
Like we go so hard (so hard)  
But I only wish that I wulda known from the start

I swear everything we say  
(really didn't matter)  
And all the plans that we made  
(it didnt mean a thing)  
I wish that I'da known  
(baby wen we started)  
I guess that's why im leaving  
(leaving u alone)

Hold up hold up

I swear everything we say  
It really didn't matter  
And all the plans that we made  
Uh huh  
I wish that I'da known  
Oh  
I guess that's why im leaving  
Leaving you alone, leaving you alone  
Yeeah man hahah
