

Things Will Change

Nina Sky

I know, I know, I know, I know

I know things will change this time
well make it right
Ive changed my mind for me and you
I know things will change
for you and I
I know our lives will break through

We dont spend time lately
hustlin' so we can make it
long nights your not by my side
I see the pain in ur eyes
hes here for our family
making money illegally
but baby we need some change
must be a better way

Baby if we work together
bulid a future
well make things better
just take my hand we can (we can)
do anything we plan
belive and

I dont wanna lose you baby (no no)
so scared that the streets might take me
wake and your not inside
calls saying your not alright
we chose the wrong strategy
need to escape tragedy (ohh)
and change our lives today
I know theres a better way

come on boy
lets go tonight (lets go)
leave our troubles behind
will the future make it right (right)
this is our time (our time)
nothing can stop us now
well make it through somehow
build a future make it right
this is our time (our time)

I know things will change somehow
will make it ohh ohh ohh
