

Cool With You

Nina

Late last night
I was goin through some old things
When I Saw a picture of you and my best friend
It reminded me of day when you were mine
You had a way that always let me hear with a smile
I want those sweet days back agian
Cause baby

[Chorus:]
It's sunny day
But you're not around
That dog gone rain might as well be pouring down
It's such a shame
Cause your heart on the ground
Just wanna be cool with you again

Sometimes I sit By the fire and reminice
About the time we spent infront of it
And that old flame will never be the same
Until you come back and rekindle it
I just wanna share my heart with you again
Cause babe

[Chorus]

I fall asleep at night
And often see you here
In my dreams
Holding me
But then I wake up and I realize that you're
Not here with me
It hurts so much
I gotta have you back babe
