

## I'll Always Stay In Love This Way

Nina

I never lost the love that I have given you  
With all the things that we have all been through  
I've never stayed in love before  
As much as I have stayed in love with you

You, you never thought the feelings  
Meant for you were true  
'coz everytime we're all alone you wonder  
If I'll really never change  
And if I'll really stay in love with you

Love, it needs just you and me to stay together  
Even if there's nothing more  
The best is there forever  
Love, we have to stay this way in love forever  
Even if you change your ways  
I'll always stay this way

'coz I, I will always stay this way in love with you  
I will always stay this way in love with you  
I will always stay this way in love with you

You, you never thought the feeling  
Meant for you were true  
'coz everytime we're all alone you wonder  
If I'll really never change  
And if I'll really stay in love with you

Love'  
It needs just you and me to stay together  
Even if there's nothing more  
The best is there forever  
Love'  
We have to stay this way in love forever  
Even if you change your ways  
I'll always stay this way

'coz I, I will always stay this way in love with you  
I will always stay this way in love with you  
I will always stay this way in love with you  
I will always stay this way in love with you
