

Make You Mine

Nina

sorry my bad

Baby boy you caught my eye
Think about you baby all the time
Now I got you on my mind
Can't wait till you are mine

Time after time
I know you caught me lookin'
Are you that fine?
Now look you got me trippin'
As time goes by
You know you got me thinkin'
Should I say hi
Could this be the begining?

Cause I...wanna know
If you feel the same
Stop wasting time...
Cause its driving me insane

Baby boy you caught my eye
Think about you baby all the time
Now I got you on my mind
Can't wait till you are mine

You make me smile
Each time I think about you
I like your style
There's just something about you
Is this a crush?
Maybe infatuation
Is this real love?
Or my imagination

Cause I...wanna know
If you feel the same
Stop wasting time...
Cause its driving me insane

Baby boy you caught my eye
Think about you baby all the time
Now I got you on my mind
Can't wait till you are mine

Yeah, I know you're lookin' for a man, girl
A gentleman, cut out the minute man
'Cause I'm the one that's gonna keep your body tingling
Earrings jingling, all you need to do is ask
Better hold on real tight, now we moving fast
I wanna make it last, girl, I'm so into you
Wanna be my boo, show me a thing or two
Are you down (I'm down), are you with it (I'm with it)
'Cause it's about to get hot, in a minute I'm yours

Baby boy, I got you, I got you, hey

Do do do do do do [8x till fade]
