

# Until All Your Dreams Come True

Nina

I don't want to get you in the summertime  
Though summer's fine  
I don't want to get you  
Until all your dreams come true  
Don't want to kiss you without knowing that  
You got it made  
I don't want to know you until all your dreams come true

You chase somebody's dream  
Though you should better chase your own  
I'd be part of your scheme  
So I'm better off alone

I ain't searching  
I can wait and  
I know that I will have my way  
If I should wake up with you tomorrow  
I must be sure that you have made your day

I don't want to get you in the summertime...  
I know well what it means  
To be living on my own  
And I don't need someone like you  
Who can't find his way alone

I will help you  
That's for sure  
Cause I know what I will get some day  
If we should wake up one day together  
You'll be glad that I did say today

I don't want to get you in the summertime....
