

Until All Your Dreams Come True

Nina

I don't want to get you in the summertime
Though summer's fine
I don't want to get you
Until all your dreams come true
Don't want to kiss you without knowing that
You got it made
I don't want to know you until all your dreams come true

You chase somebody's dream
Though you should better chase your own
I'd be part of your scheme
So I'm better off alone

I ain't searching
I can wait and
I know that I will have my way
If I should wake up with you tomorrow
I must be sure that you have made your day

I don't want to get you in the summertime...
I know well what it means
To be living on my own
And I don't need someone like you
Who can't find his way alone

I will help you
That's for sure
Cause I know what I will get some day
If we should wake up one day together
You'll be glad that I did say today

I don't want to get you in the summertime....
