

## When The Love Is Gone

Nina

When the love is gone  
Should life still be worth living  
When all has lost it's meaning  
How do you make it thru

When the love is gone  
How does the heart start over  
When nothing left still matters  
Confused what do I do

[Refrain:]  
Is love a crazy game  
When lost who is to blame  
Looking back what were the chances  
There were less hits than were misses  
But back then we had each other  
And love had conquered all

Now that love is gone  
Can't stop myself from asking  
When did we stop believing  
In a love that was true

[Refrain II:]  
Is love a crazy game  
When lost who is to blame  
We had great love for each other  
But we were young and knew no better  
Thru the years love slowly faltered  
And this time love didn't conquer all

Memories of the past keep haunting me  
Reminders of a love that used to be  
Even when the heartache fades away  
The emptiness and tears still find a reason to stay....

[Repeat Refrain II]

[Coda (Fade)]  
Let go of the past  
Some things don't last  
But life goes on  
When the love is gone
