

Everybody Is

Nine Black Alps

Hey, put on a face
You know that I could be a hypocrite again
Anyway, it's just a phase
Because tomorrow is another day, tomorrow we can start again

Everybody is a liar
Everybody has a price
And I know the only reason for it all's to stay alive

Smile, make me laugh
It's the only way that I'll be comin' back
Oh friend, it's not the end
Because tomorrow is another day, tomorrow we can start again

Everybody is a liar
Everybody has a price
And I know the only reason for it all's to stay alive
And I know the only reason for it all's to stay alive

Sometimes all I want's a liar
Sometimes I don't have a price
And I know the only reason for it all's to stay alive
