

# Forget My Name

Nine Black Alps

You are all the same  
You're so polite  
You can't explain  
And me, I'm getting sick  
I'm sick of it  
I call it quits

Because really, falling down is easy  
No one else will help me  
Won't you carry on dear  
Carry on without me

Please just forget my name  
Forget my face, you're all the same  
The human race  
Someone else can take my place  
And leave me here  
Without a trace

You're left and right  
You're rich and poor  
You're black and white

And me, I'm barely here  
I'm barely there  
Not anywhere

Because maybe, everybody's happy  
Laughing and ecstatic  
Don't forget to carry on without me

Please, forget my name  
Forget my face  
You're all the same  
The human race  
Someone else can take my place  
And leave me here  
Without a trace

So you can sell me  
Send me down the river  
You'll find someone who's better  
Won't you carry on dear  
On without me, please

Forget my name  
Forget my face  
You're all the same  
The human race  
Someone else can take my place  
And leave me here  
Without a trace  
Without a trace
