

My Brother

Nine Days

My brother and I are side by side
Always as one just you and I
I never thought I'd have to say goodbye
But I know he's here always beside
I can talk to him whenever I'm cryin'
For in my heart he I shall find
But I know whenever I find trouble
My brother he will still come running
My guardian angel over my shoulder
My days in awe as I grow older
My brother and I are side by side
He took away my fear of dying
What you cannot see you cannot fight
But it's ok I'll be alright
The best of life as I pass the time
To later on I find the stairway he climbed
But I know whenever I find trouble
My brother he will still come running
My guardian angel over my shoulder
My serenity will soon take over
