

## Reptile

Nine Inch Nails

she spread herself wide open to let the insects in  
she leaves a trail of honey to show me where she's been  
she has the blood of reptile just underneath her skin  
seeds from a thousand others drip down from within

oh my beautiful liar  
oh my precious whore  
my disease my infection  
I am so impure

get it

devils speak of the ways in which she'll manifest  
angels bleed from the tainted touch of my caress  
need to contaminate to alleviate this loneliness  
I now know the depths I reach are limitless

oh my beautiful liar  
oh my precious whore  
my disease my infection  
I am so impure
