

# Dinosaur Laser Fight

## Ninja Sex Party

Hey boys and girls  
This ninja science lesson's gonna rock your world  
Now close your eyes and travel back in time  
With me and Ninja Brian  
It's gonna blow your mind to shit!

It was an ordinary day at Dinosaur High  
When Stegosaurus raised his hand to call for high-fives  
Tyrannosaurus saw this and got pissed  
Because his tiny wrists  
Caused his high-five to miss  
And he was like "Fuck this!"

Oh Yeah! Oh yeah! It's an old school Dinosaur Laser Fight!  
Oh Yeah! Hell Yeah! Just a classic Dinosaur Laser Fight!

It was a futuristic prehistoric throwdown  
But it was quiet because in space there is no sound  
Did we mention that this took place in space?  
It did. So shut your face  
Also, there were robots and sharks

Doctor Sexbang did this really happen? ahh ya!

Oh Yeah! Oh yeah! It's a goddamn Dinosaur Laser Fight  
In space! With sharks! It's a balls out Dinosaur Laser Fight!

It's fucking science!  
Just ask Albert Einstein. He invented space.

...and then a bunch of fucking aliens from Mars  
Showed up all ripping solos on V-neck guitars  
The dinos, sharks, and robots saw they came in peace  
So they killed them with lasers  
Holy shit!

And then they had a giant laser party  
A Dinosaur Laser Party! Holy shit!  
Laser party! Holy Shit  
It's Fucking Science.

Fuck!
