

# The Whisper Of Rain

Niobeth

Keep my secret deep within,  
hear my call...

Oh... oh how I cry  
In the lone night  
please save me from  
the embrace denying my future  
Where are you father?  
Where are you mother?

Come from the deep,  
Bless me, protect me  
from her cold fingers

Echoes of terror  
In this solitude  
Where's my angel?  
I remember your eyes (and)  
How we played together  
Angel...

I feel fear...  
(Darkness is coming,  
watch out from your back,  
here we are...)  
Why I hear but silence?  
(Hunting your last breath,  
stealing your soul,  
torn apart)  
Get out this cold  
(Keeping the cold  
even colder  
around and inside)  
Freezing my illusions  
(Stalking the child  
you once was,  
where is it now?)

The whisper of rain will bring me life  
From an unique memory

Missing inside the twilight,  
The crown of my sunrise  
and moon of my pale night  
Chant in horizon brings hope,  
Defeat all my fears  
and make sound my best play

Come from the blue,  
Bless me,  
protect me from her cold fingers

Echoes of terror  
In this solitude  
Where's my angel?  
I remember your eyes (and)  
How we played together

Angel...

Cure me from this illness  
Caressing the moonlight  
Sweet touch dreaming the angels  
Blue is the soul of silence

Keep my secret deep within  
Cold's invading all of me  
Comet of my ultimate yearning  
Chained and merged forever to you

Freedom  
To smile in peace  
Freedom  
To paint the sky with  
My hopes  
Stretch your hands  
Take my love  
Keep it with you

Rest for this night,  
Rest in my shoulders,  
my saviour, downcast

Echoes of terror  
In this solitude  
Where's my angel?  
I remember your eyes (and)  
How we played together  
Angel...

White mist rising from the floor  
Where am I now?  
Your smell singing everywhere  
This should be peace

I have felt the ocean  
Wished for the moon  
Caressed the darkness  
Swam in the sun

Sad is the day (Rest for this night)  
Dark is the journey (Eternal Whisper)  
When the moment comes (May you find peace here)

No victory nor defeat  
Had no chance to fight  
Dreaming the path to your smile  
Tell me you are here  
I have felt the ocean  
Wished for the moon  
Caressed the darkness  
Swam in the sun

Great is the day (Precious the day)  
Long is the journey (Precious the journey)  
For to go back home (Staring Shooting stars)
