

1:30

Nits

I can't sleep  
Counting sheep  
The hours slowly slip away  
Half past one  
Half past two  
Someone please tell me what to do

I'll fix myself a drink  
So now I leave the bed  
My thoughts, they rule my head

Hear that hum  
There's a buzz  
I think about the two of us  
Who is wrong  
Who is right  
This question keeps me up all night

You're living in a world  
That's made up by yourself  
Hey honey, you need help

Just like the sun  
Just like the sun  
Just like the sun you came my way  
Couldn't run  
Couldn't hide  
Between dawn and dusk you had your day

Did I tell you  
There's no future for the sun  
One day your time has come

Half past one  
Half past two  
Half past one  
Half past two  
Half past one  
Half past two  
Half past one  
Half past two
