

My world
My world
My world
My world

There's no love lost between
Me and this old great big world
That will never change
So I made my own one
In my own time, true to scale
In my own house

My world
My world

Little shops and little houses
Tiny trains that always run on time
Little men and little ladies
Everyone there is a friend of mine

My world
My world

There's no love lost between
Me and this old great big world
That will never change
So I made my own one
In my own time, true to scale
In my own house

In my own time
In my own house
In my own time
In my own house
In my own time
In my own house
In my own time
In my own house
In my own time
In my own house
In my own time
In my own house
In my own time
In my own house
In my own
