

My world  
My world  
My world  
My world

There's no love lost between  
Me and this old great big world  
That will never change  
So I made my own one  
In my own time, true to scale  
In my own house

My world  
My world

Little shops and little houses  
Tiny trains that always run on time  
Little men and little ladies  
Everyone there is a friend of mine

My world  
My world

There's no love lost between  
Me and this old great big world  
That will never change  
So I made my own one  
In my own time, true to scale  
In my own house

In my own time  
In my own house  
In my own time  
In my own house  
In my own time  
In my own house  
In my own time  
In my own house  
In my own time  
In my own house  
In my own time  
In my own house  
In my own time  
In my own house  
In my own
