

# The Lodger

Nits

He likes the cold winter nights  
And the dark afternoons  
The lodger  
When there are shadows behind  
Every window and blind  
The lodger

There's another murder in the news today  
He kills only women, always blondes they say

They hear the sound of a car  
Keep the front door ajar  
The lodger  
He saw the sign and it said  
They had breakfast and bed  
The lodger

There's another murder in the news today  
He kills only women, always blondes they say

Behind the thick green curtain  
Everybody's whispering  
Behind the thick green curtain  
Everybody's whispering  
Behind the thick green curtain  
Everybody's whispering  
Behind the thick green curtain  
Everybody's whispering

The lodger

The lodger
