

Come Alive

Nitzer Ebb

yeah; come on
wake up, wake up, wake up your heart
and come alive
you could steal my car
if only i had one to drive
drive through the night
through the midnight air
screeching and speeding
in the streetlamps' glare
we come alive
we come alive
there's still one place to try
we can take a ride to loveland
there's still one place to try
we can take a ride to loveland
turn on, turn on, turn on your smile
and come alive
you could wreck my car
if we only both could survive
bumper to bumper
the fumes start to choke
coughing up the secrets
of this innermost joke
we come alive
we come alive
there's still one place to try
we can take a ride to loveland
there's still one place to try
we can take a ride to loveland
there's still one place to try
we can take a ride to loveland
there's still one place to try
we can take a ride to loveland
listen
wake up, wake up, wake up your heart
and come alive
turn on, turn on, turn on your smile
and come alive
wake up, wake up, wake up your heart
and come alive
turn on, turn on, turn on your smile
and come alive
