

## Going Away

Nitzer Ebb

As the sun sets on each other  
We look in fear to discover  
How deep these hooks go in  
Deep into our skin

All roads lead away  
Away from me today  
It's not difficult to see  
You're going away from me

Goin' with me  
You're goin' with me  
It's not difficult to see  
You're going away from me

As our bridges fall behind us  
We carry on regardless  
Of how we've stumbled yet  
Stumbled with regret

All roads lead away  
Away from me today  
It's not difficult to see  
You're going away from me

As the heavens drop to our feet  
Our hands let go as our eyes meet  
Across this tear soaked land  
The darkness where I stand

All roads lead away  
Away from me today  
It's not difficult to see  
You're going away from me

Goin' with me  
You're goin' with me  
It's not difficult to see  
You're going away from me

I am consumed  
I'm rotting from inside  
My love sickened heart  
I've fallen and I've cried
