

# Promises

Nitzer Ebb

Push start  
Move over in the doorway  
Let's go  
What's that you say  
Look in the mirror  
You can't look away  
Get stuck  
With yourself in the new skin  
Get lost  
Drown in a new sin  
And in the morning can't say where you've been

Promises, promises, promises, promises  
What did you promise  
You promised yourself  
Promises, promises, promises, promises  
What did you promise  
You promised yourself

Push start  
Move over in the doorway  
Pass go  
What's that you say  
Look in the mirror  
You can't look away  
Get stuck  
With yourself in a new skin  
Get lost  
Drown in a new sin  
And in the morning can't say where you've been

Time has been passing while you have been laughing  
And time is not on your side  
Time has been passing while you have been laughing  
And time is not on your side  
And time is not on your side  
And time is not on your side  
And time is not on your side
