

Tell Me She's Nothin'

Nivea

I seen her and her demeanor
She wanna take you from me
And I know it im gonna show her
That shell never get you from me

You use to kiss her, do you miss her?
Do you see pieces of her in me
What are you thinking, what are you dreaming?
I got this feeling so say it so say baby

Tell me you love me, tell me you care
Tell me shes over tell me shes nothing
That She didn't love you and I need you baby
Tell me shes over, tell me shes nothing

I don't want no competition for your attention
Aint no loosing me.
Complicated so impatient but I cant keep feeling maybe karmas c
oming back around on me

You use to kiss her, do you miss her?
Tell me do you see her when you see me
What are you thinking, what are you dreaming?
I got this feeling so say it boy say it

Tell me you love me, tell me you care
Tell me shes over tell me shes nothing
That She didn't love you and I need you baby
Tell me shes over, tell me shes nothing

Tell me you love me, tell me you care
Tell me shes over tell me shes nothing
That She didn't love you and I need you baby
Tell me shes over, tell me shes nothing
