

# Cold War

Niykee Heaton

[Intro]

Baby I just wanna thank you  
Baby I just wanna thank you

[Verse 1]

Those nights you took her home  
Press "decline" on your phone  
Left me crying all alone  
You chose, you chose  
To let me lie there on your sheets  
You told me things that you don't speak  
Let me love you then you leave

[Refrain]

Baby I just wanna thank you  
Baby I just wanna thank you

[Chorus]

Forfeit this cold war  
It's not yours anymore  
I'm done, I'm done  
How rightly you want love  
Tell me how to brink without your touch  
I'm done, I'm done, I'm done

[Refrain]

Baby I just wanna thank you  
Baby I just wanna thank you

[Verse 2]

Wanna thank you for that pain  
How you branded me with shame  
Made me hate my own mistakes  
You made, you take  
I should thank you for this time  
Showed me how to stay alive  
How to hurt and how to cry  
You right, now I

[Refrain] (2x)

Baby I just wanna thank you  
Baby I just wanna thank you

[Chorus]

Forfeit this cold war  
It's not yours anymore  
I'm done, I'm done  
How rightly you want love  
Tell me how to brink without your touch  
I'm done, I'm done, I'm done

[Bridge]

I just wanna thank you  
I just want, I just want  
I just wanna thank you

[Chorus] (2x)

Forfeit this cold war  
It's not yours anymore  
I'm done, I'm done  
How rightly you want love  
Tell me how to brink without your touch  
I'm done, I'm done, I'm done
