

## Feel Inside

Nizlopi

Well I'm calling out through this ice age  
The system is making our hearts cry  
And the call in me to not put up with it  
Is one I'd be a fool to deny

Cos the world is all lost  
The poor are being destroyed  
The rich are in charge  
In a bulldozer

And we're on the edge  
You and me know it's true  
What we gonna do  
Before our lives are over?

What I feel inside  
Is not gonna let me fall down  
What I feel inside  
Is holding, is holding, is holding  
To the truth tonight

And this holding pattern our culture's in  
We all know this world is dying  
And the people in charge they know it too  
That's why they stole Iraq's oil and soon Iran's too

And I know we can march  
I Know we can proclaim  
The truth to power  
Say "it's not in our name"  
Show the men who bomb  
Because of their fear and greed  
That our love for each other  
Is stronger than they ever believed

Come back  
I'm so lost  
And my heart is an aching hole
