

Flooded Quarry

Nizlopi

Well I follow my word and I followed my heart to you
And I walk these Welsh mountains
going "damn Anna I'm feeling it too yeah"
And you saw me coming with this bomb strapped to me
With these words and feelings that really even,
just blow you apart yeah

And six months later we're just crying out
With these deep wells in our hearts
all filled up with doubt now
And I'm coming down to that Italian restaurant
To say it must be real, you're the one i really want

Yeah you're bottomless with wonder oh yeah
Like some Flooded Quarry I could dive into
Get deeper, get fonder oh yeah
Love goes deeper than the fishes into you

And people write to us and tell us they love us
The music is strong and Anna you feel it too, well
But to tell you the truth I can't exist in this vacuum here now
The right words come from loving people like you yeah

You heard me crying on the telephone
Why am I so weird, why am I so like "leave me alone" now
And my heart is aching and I'm tired now
But its your and my job here to battle out

Somehow tonight
show me how brave you really are,
and how brave we really are

You're like a drink of water, you're like a closeness
Like a daughter in to me love,
singing to you with these wishes
Love goes deeper than the fishes into you
