

Come with me

Nneka

Come let us be truthful, surrender our pride
Admit the stains on our, our chest, our hands
We seek, we find / we take, we kill
Our love is hate, our smiles are fake
Take my body, take my hands,
Take everything you have created
Take your riches, take your money, take everything
But not my experience
No no

No you cannot take my experience away,
No you can't take my soul away,
No you can't make me go astray
Because I know where I stand
No you cannot take my experience away,
No you can't take my soul away,
No you can't make me go astray
Because I know where my father is

Come let us be truthful, surrender our pride
Admit the things we have been doing
Oh it seems as if we deal with others
To gain self profit
Oh why why why why why why
Oh no

No you cannot take my experience away,
No you can't take my soul away,
No you can't make me go astray
Because I know where I stand
No you cannot take my experience away,
No you can't take my soul away,
No you can't make me go astray
Because I know where my father is

Come let us admit that we are living a lie
Come let us speak out that we have been sinning,
We have been sinning
Oh no come let us take a look at the mirror,
See how sad it looks
Come let us take a break, go into ourselves and
Find the peace and silence saying

No they cannot take your experience away,
No they can't take your soul away,
No they can't make you go astray
Because you know where you stand today
No they cannot take your experience away,
No they can't take your soul away,
No they can't make you go astray
Because you know where your father is

I know, you know, I know where my father is
Don't you know? Yes I do
