

# God Of Mercy

Nneka

You got my heart broken  
In the state, the way I felt you left me in  
Gave me your scripture to read and understand  
And not to fear, now these voices in my mind fight against my soul  
They want to take over, and I feel weak and sober  
There are so many thoughts running through my mind  
That you left me all alone but you send me messages say you won't leave me on my own  
Oh God of Mercy, yes, I appreciate thee  
And when I think that you're not present you're the one carrying me  
And I can't see your footprints, you say you are in me  
Sometimes I feel so immature, so unclean to even stand before your throne yes

Oh God of Mercy  
I appreciate thee  
And when I think that I'm alone  
You carry me and make me strong  
And when I ask how long 'till we can shout triumph  
You say I should be patient you have time for everyone  
And when I'm down broken, prayed so hard to get off my depression  
To dismiss Earth's equation need to find a solution  
I walk through the streets not feeling my body not my soul  
Like living it I go through life pain, my heart, stole  
Endless deception, don't want to be to myself  
To the end comes conclusion it's no use  
'Cuz night or man is the devil's residence  
And putting God's power to the test  
Is the beginning of downfall, of downfall

Oh God of Mercy  
I appreciate thee  
And when I think that I'm alone  
You carry me and make me strong  
You make me strong, yeah, you make me strong
