Let's hop a train
and stow away
down in Mexico

And on the way
as music plays
we'll let our beards grow tall

She don't like me singing songs
She don't want to sing along

It's still the same and
She only likes me when I'm gone
It's still the same and
She only likes me when I'm gone

La da dee da dee da dee da dee da dee down down down
La da dee da dee da dee da dee da dee down down

I spilled my drink
across the bar
said, "Baby what's your name?"

Her boyfriend stood
and smashed a bottle over my head

She don't like me singing songs
She just want to sing along

It's still the same and
She only likes me when I'm gone
It's still the same and
She only likes me when I'm gone
