Let's hop a train  
and stow away  
down in Mexico

And on the way  
as music plays  
we'll let our beards grow tall

She don't like me singing songs  
She don't want to sing along

It's still the same and  
She only likes me when I'm gone  
It's still the same and  
She only likes me when I'm gone

I spilled my drink  
across the bar  
said, "Baby what's your name?"

Her boyfriend stood  
and smashed a bottle over my head

She don't like me singing songs  
She just want to sing along

It's still the same and  
She only likes me when I'm gone
