No Angels

I've been waiting
For this moment
So won't you come here
Close to me, next to me, baby

When you touch me
When you kiss me
Got me feelin'
This ecstasy is destiny

You can get me in the zone
Thrill me to the bone
Get me so excited
So why don't we go
Where we've never been before
You can take me higher

You know you got me
Crazy for you
I think I'm goin'
