

# Derailed

## No Angels

You see a book by it's cover  
I see the pages that we've yet to write  
You see the world with no color  
I see a rainbow inside of your eyes

I remember the time when you brought the sun to my day  
Where did you hide all of the beautiful sky  
Cuz now it's just pouring like rain

[CHORUS]

It's like we derailed  
Baby, just tell me where we failed  
So we can go back to the good days  
Before love got off of our train  
And we fell off track

We fell off, fell off  
Fell off the track  
We fell off, fell off  
Baby, come back  
We fell off, fell off  
Fell off the track and Derailed

Somehow you lost your direction  
We were so close then you fell far behind  
Never had to ask for affection  
Used to be strong now you don't even try

I remember the time when i had a smile on my face  
You shouldn't hide the fact that you love inside  
Please don't drift too far away

[CHORUS]

[BRIDGE]

What is it gonna take to go back in time  
Just press rewind, cuz i hate this feeling  
You still have a chance to make all this right with me

It's like we derailed  
Baby, just tell me did i fail to love you  
Cuz i'm still here, waiting for you at our station

It's like we derailed  
Baby, just tell me where we failed  
So we can go back

We fell off, fell off  
Fell off the track  
We fell off, fell off  
Baby, come back  
We fell off, fell off  
We're not supposed to be derailed

You see a book by it's cover  
I see the story that we used to write
