

Minute By Minute

No Angels

[Verse 1:]

I, I know that you were the first in love
Stuck around while my heart played dumb
Kept holding on
When I open up to the light of day
I just hope that I'll see your face
Kept holding on

[Chorus:]

So don't walk away don't walk away now
I'm here with you I'm with you right now
Keep holding on keep holding on
Minute by minute, minute by minute
I'm falling in I'm falling deeper
Each step I take I'm getting closer
It won't be long it won't be long
Minute by minute, minute by minute

[Verse 2:]

I'm seeing things from your point of view
I'm inching over making room for two
Keep holding
I started off thinking this ain't me
But I've changed directions cuz I finally see
I want you more
Minute by minute

[Chorus:]

So don't walk away don't walk away now
I'm here with you I'm with you right now
Keep holding on keep holding on
Minute by minute, minute by minute
I'm falling in I'm falling deeper
Each step I take I'm getting closer
It won't be long it won't be long
Minute by minute, minute by minute

[Bridge:]

Love just turns us into fools
That's right, look at me with you
Couldn't see what you always knew
Wherever I'm going is somewhere that you'll be

[Chorus:]

So don't walk away don't walk away now
I'm here with you I'm with you right now
Keep holding on keep holding on
Minute by minute, minute by minute
I'm falling in I'm falling deeper
Each step I take I'm getting closer
It won't be long it won't be long

Minute by minute, minute by minute
