

## Reason

## No Angels

I'm going through good and bad times  
Working hard to live my dreams and I  
Know now that I chose the right way  
I'll never forget the last three years, but

Sometimes, I wonder  
If I had, made it without

The way you love me and support me  
Makes me know we'll never part  
The way you touch me deep in my soul  
That's the reason you're in my heart

The way you need me like I need you  
I'm sure we'll never part  
The way you feel me and make me smile  
That's the reason you're in my heart

In moments of fear and darkness  
You covered me with light and hope  
But we need a break it won't be forever, 'cause  
We owe you the time of our lives

Always in all times  
We will be, yours, 'cause we know

The way you love me and support me  
Makes me know we'll never part  
The way you touch me deep in my soul  
That's the reason you're in my heart  
The way you need me like I need you  
I'm sure we'll never part  
The way you feel me and make me smile  
That's the reason you're in my heart
