

Young Love

No Angels

We're still talking on the phone in the mornin
we started talking on the phone since the night before
I might be tired but the laughter is pouring
so I think I'll stay up some more

It's like we're sixteen again
I haven't felt like this for so long
I never want it to end
and it takes me back

[CHORUS:]
it feels like young love
it feels like butterflies singing around me
it feels like young love
and even when we're old and grey
we're still gonna stay
in young love

How can I stand up on my feet when I'm trippin'
I get so weak in the knees every time we touch
Oh I'm melting from the heat of your kisses
and when our tongues are tied
we can go all through the night

It's like the first time again
I haven't felt like this for so long
I'm melting into your hand
And it takes me back
do you know baby that

[CHORUS:]
it feels like young love
it feels like butterflies singing around me
it feels like young love
and even when we're old and grey
we're still gonna stay

Time stands still
when you're around
Time stands still
when you're around
Time stands still
when you're around

[CHORUS 2x]

In young love
