

## Blue in the Face

No Doubt

Just like a bee rushing to a comb of honey  
Why can't you see you look so very funny  
You worry yourself sick till you're blue in the face  
Relax and sleep, tomorrow isn't leaving  
And counting your sheep won't relieve you from this grieving  
You worry yourself sick till you're blue in the face

But you'll make ends meet I know you will so please pull up a chair  
Take your time the world's not going anywhere  
Honey, you worry yourself sick till you're blue in the face

Blue in the face  
'Cause you're always in a hurry  
Blue in the face  
'Cause you always tend to worry  
You're just like a honey bee, you panic, you sting, then you die

It's just like you to fret like you do  
So take the afternoon and maybe someday soon  
You won't have to worry yourself sick till you're blue in the face

But you'll make ends meet I know you will so please pull up a chair  
And take your time the world's not going anywhere  
Honey, you worry yourself sick till you're blue in the face

Blue in the face  
'Cause you're always in a hurry  
Blue in the face  
'Cause you always tend to worry  
You're just like a honey bee, you panic, you sting, then you die  
You're just like a honey bee Zap!

Oh, when you're in a state of mind they call anxiety  
And you find it very necessary to pull out your hair  
Don't be discouraged  
Oh, honey have courage  
Don't worry yourself sick till you're blue in the face  
Like always you worry till you're blue in the face  
Honey why worry yourself sick till you're blue in the face

You're always in a hurry  
Blue in the face  
You always tend to worry  
'Cause you're just like a honey bee, you panic, you sting, then you die  
Just like a honey bee

Blue in the face  
You got no time to waste  
Slow down the pace  
You're turning blue, blue, blue

Blue in the face  
You got no time to waste  
Slow down the pace  
You're turning blue
