

Open the Gate

No Doubt

I see you from the distance
From beyond the fence you made
Hiding all your feelings
Behind your barricade
Oh have you been invaded
Is this the reason why you hide
I know just how you're feeling
I know - let me inside

Open the gate up
Open the gate up - hurry
Open the gate up - hurry

I want to get near you
But you just won't let me in
'Cause you're so scared of losing
Everything you've got within

Come on now you can trust me
Come on and open the door
'Cause I know just how you're feeling
I know - I've been there before

Open the gate up
Open the gate up - hurry
Open the gate up
Hurry hurry hurry hurry
And do it right now
Do it right now
Do it right now
Do it right now - hurry

Do it right now - do it right now
Do it right now - do it right now
And do it right now - do it right now
Do it right now - do it right now
Hurry

Open the gate up
Open the gate up - hurry
Open the gate up
Hurry hurry hurry hurry
Open the gate up - open the gate up
Or I'm gonna knock the damn door down
Open the gate up - open the gate up
Or I'm gonna knock the damn door down
Open the gate up - open the gate up
Or I'm gonna knock the damn door down
Open the gate up - open the gate up
Or I'm gonna knock the damn door down
Down
