Trapped in a Box

Trapped in a box of tremendous size It distorts my vision, it closes my eyes Attracts filthy flies and pollutes in the skies It sucks up our lives and proliferates lies Trapped in a box Trapped in a box, four walls as sky Got a screen for a window about two feet wide My mind rides and slides as my circuits are fried No room for thought, use the box as my guide Trapped in a box

Ooh trapped in a box Watch the world as it flocks To life's paradox And we're all trapped in a box

Oh trapped in a box I'm not alone I know of others with a box as their home Light only enters from a crack or a hole Oh this is not enough for a human to grow Trapped in a box

Ooh trapped in a box Watch the world as it flocks To life's paradox And we're all trapped in a box

Always wanting a different view Instant gratification for you Reality gone with a single click Just hope that that switch won't stick

Ah trapped in a box my life becomes void And all of the thought for myself's now destroyed Controlling my mind, what to eat, what to buy Subliminal rules: how to live, how to die Trapped in a box

Ooh trapped in a box Watch the, the world as it flocks To life's paradox And we're all, we're trapped in a box Ooh trapped in a box Watch the world as it flocks To life's paradox We're all trapped in a box

Ooh We're all trapped in a box
