

Under Construction

No Doubt

His accent serenades me and presses at the door
Broken promise to be around for my mind war
And my accomplishment's interrogating me
Today's become tomorrow before I wanted it to be
And desperate discussions
The start of the destruction
Our sign, in my mind
I'll be fine
I'll be fine

'Cause I'm under construction everyone
So you'll have to mind the mess
I'm under some construction

I always had to try harder, I never really could keep up
Sitting in the corner with my illness and bad luck
But in this humble place I'm feeling like red wine
And I hope to get better with some time
I'll be fine
With some time
I'll be fine

'Cause I'm under construction everyone
So you'll have to mind the mess
I'm under some construction

Construction
Modification
Motivation
Of construction

And the rituals that soothe and disgust me will be gone
With some time
I'll be fine
With some time
I'll be fine
I'll be fine

I'm under construction everyone
So you'll have to mind the mess
I'm under some construction
I'm under construction everyone
So you'll have to mind the mess
I'm under some construction
Under construction
Construction
Feel better with some construction
